

McKesson Reimbursement Data & Insights

McKesson Reimbursement Data & Insights is a unique analytics tool that provides a better line of sight into your true net reimbursement and helps improve your financials.

Pharmacies will have the ability to download report details and receive helpful action steps that you may implement to improve their overall net reimbursement. Today's prescription reimbursement complexities prohibit pharmacies from knowing what their true reimbursement is and how to positively impact it.

Insight into essential data reports

- Net reimbursement with KPIs
- Claim growth
- Top current plans
- DIR liability & collections
- Effective rates & true-ups
- Managed care rebates
- Diversified revenue streams
- Top providers

Nearly 75%

of claims volume may have post Point of Sale (POS) payment adjustments, meaning reimbursement totals are not final at POS.*

Improve cashflow and profitability

Payer

The average pharmacy fills about 4,473 prescriptions per month.** Gain insight into which payers the majority of your claims and reimbursement dollars come from.

Services

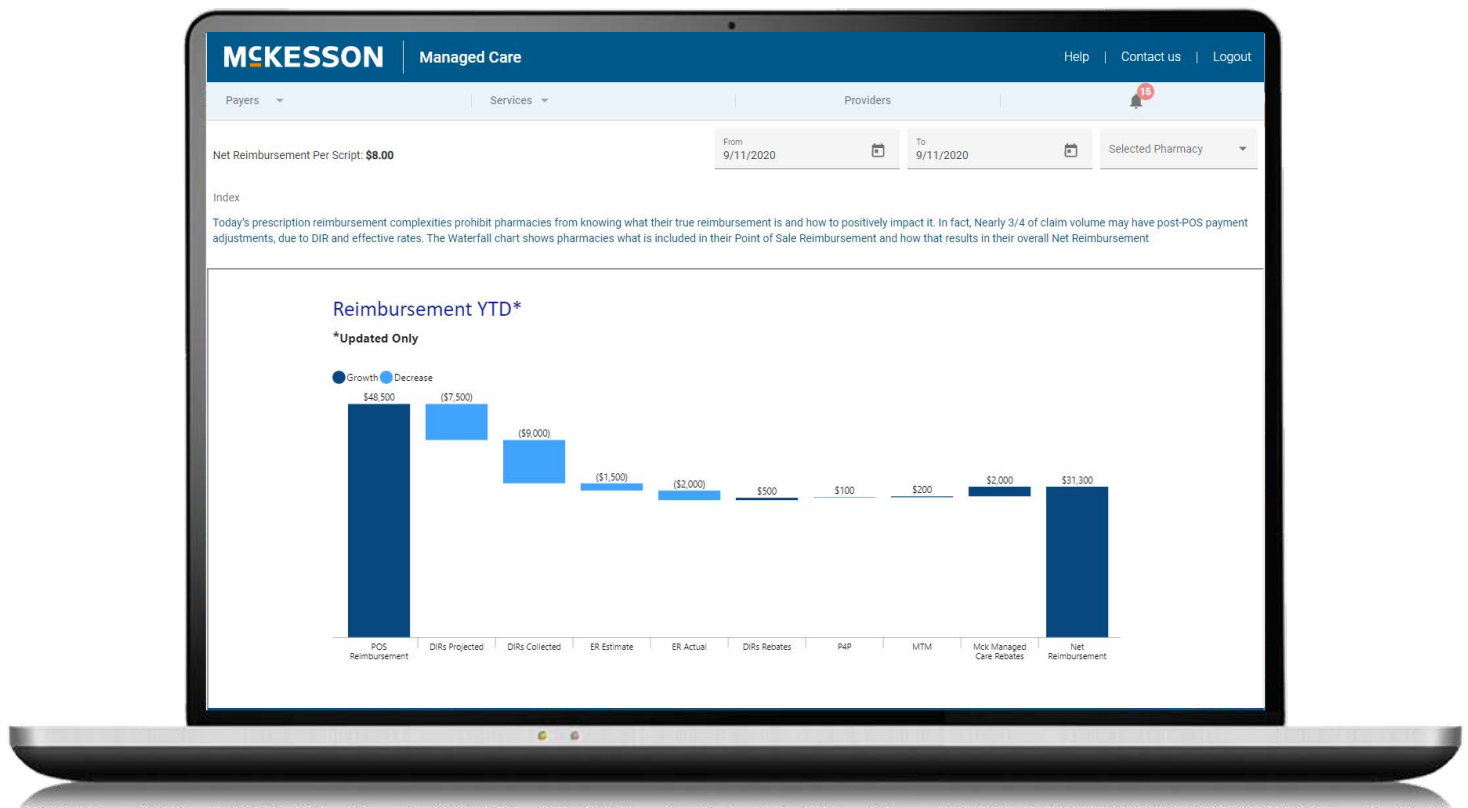

Health Mart Atlas™ pharmacies earned over \$10M in MTM revenue last year.** Identify any dollars you may be leaving on the table from MTM, immunizations, or Managed Care Rebates.

Provider

The average pharmacy fills prescriptions for 1,340 providers.* Find out if you are maximizing your share of those provider's prescriptions.

*Source: Average Health Mart Atlas pharmacy based on internal analysis of 2019 administrative claims data.
 **Source: Based on the same set of MRA stores active all 4 years, using claims processed through RelayHealth.
